Your eligibility for financial aid is based on the Free Application for Federal Student Aid (FAFSA). We use the FAFSA process to provide an equitable and consistent review for all students. The 2023-24 FAFSA calculation considers your 2021 income as a good indicator of the financial strength of your family.

We understand that families may experience financial changes that are not reflected on the FAFSA. If your parent(s) 2022 income is expected to be significantly less than that of 2021 please complete the information listed below and provide all noted supporting documentation.
